Continuation of Substance of Interview including description of the general nature of what was discussed: Mr. Shieh was notified that the claims have to be amended to reflect that the first antibody binds to an epitope in the early pregnancy associated molecular isoform of hCG that is bound by the B152 antibody, in order to render the claims allowable. Mr. Shieh requested that Applicant be given a chance to review the suggested claim amendment. On May 4, 2006, Mr. Allan Morrison and Mr. Jeffrey Shieh submitted a faxed copy of claims 58-61, reciting the amendment suggested by the Office as aforementioned, to render claim 58 allowable. Accordingly, claims 58-61 are allowable.
